

EXCELLENCE IN HEALTHCARE

Name: Dr. MADASI VENKAIAH

PROFILE:

Dr. M. Venkaiah Dy. Civil Surgeon and **Asst. Prof. (Surgery)** at Regional Institute of Medical Sciences, Ongole hails from a family belonging to a socially and economically weaker section of the society. He obtained his training in Basic **Laparoscopic** Techniquet at Bombay Hospital in the year 1996. He pioneered the method of sterilizing women as part of the Family Planning Drive undertaken by the government of India / Andhra Pradesh using the Double Puncture Laparoscopic Method. This is a relatively painless method which ensures that the women of child bearing age are able to resume their normal life in a matter of just four hours after under going surgery.

Dr. Venkaiah initially taught the procedure to 30 Doctors who inturn trained 200 DPL surgeons and 22,00,000 women have been benefited by using this procedure. He was instrumental in ensuring that the state of Andhra Pradesh (United) achieved the first place in Family Planning and Population Control in South Asia (2011). He also conducts medical camps every Sunday in rural and remote areas of **Prakasam** district and other parts of Andhra Pradesh with the help of IMA, Local NGO, Rotary Clubs, **Synards**, World Vision and other relevant NGOs.

He has conducted 98,800 family planning cases in the past 20 years in which 5800 cases were complicated (post LSCS operated cases), 10,000 tubectomy cases through 6052 medical camps conducted in rural and remote areas of Andhra Pradesh including Telangana region.

Dr. Venkaiah also setup a trust by the name “Mothers Trust” whereby he aims to continue extending his medical services even after retirement to the poor and the needy living in the rural and remote areas of **Prakasam** District and other parts of Andhra Pradesh.
